

DEVELOPMENT VICTORIA

OFFICE FIT-OUT MELBOURNE HEADQUARTERS

Pro AV Solutions were selected on the basis of the Development Victoria Headquarters' holistic, user focused offering & expertise in the specified systems being deployed.

The project was handed over on time, and under budget. In fact, value management solutions we implemented enabled the client to invest in another seven interactive huddle spaces within their original budget.

The clients were thrilled and meeting spaces were being fully utilised on day one.

Solutions Deployed: Skype for Business Room Systems; SMART Board Kapp iQ Interactive Displays; Crestron Integrated AV & Room Control; Evoko Room Booking Systems; Large Joinable Training Spaces and Clickshare Presentation.

With a mandate from the Department to enable collaboration in a variety of contexts, we delivered a suite of more than 20 integrated meeting rooms, huddle spaces and presentation areas.
